

Eye lens dosimeter intercomparison IC2025eye

Terms and Conditions of participation

1. The participant shall send 20 clearly labelled passive area dosimeters of a dosimetry system (specifying the type of the system and one of the three possible measurement conditions in this Application Form). The dosimeters must arrive before 15 September 2025 at the dosimetry laboratory of SCK CEN.
2. The participation fee is 1150 EUR for one dosimetry system. EURADOS sponsors will pay 1050 EUR for one dosimetry system and 1150 EUR for any additional system. Fees must be transferred in advance to the EURADOS bank account free of bank transfer costs (transfer costs should be borne by the customer) after receiving the invoice from EURADOS including instructions for payment, latest until 15 September 2025. Refunding will only be possible in the unlikely event that the intercomparison is cancelled by EURADOS.
3. Each participant is responsible for the transport costs to the irradiation laboratory, for a transport insurance to the irradiation laboratory and for customs formalities. EURADOS, the intercomparison organization group, the coordinating laboratory and the irradiation laboratory will not accept additional costs for transport insurance, transport damages or loss, customs or import/export duties when receiving/sending the dosimeters from/to participants. Participants from non-EU countries are responsible for making the necessary arrangements (e.g. preparation of documents such as pro forma invoices).
4. EURADOS, the intercomparison organization group, the coordinating laboratory and the irradiation laboratory accept no liability for any direct or consequential loss or damage arising from this intercomparison.
5. Participant must report results in terms of $H_p(3)$ within one month from receiving their irradiated dosimeters.
6. Change of results after distribution of the irradiation data is only possible in case of errors made by the irradiation lab or intercomparison organization (to be judged by the intercomparison Organization Group).
7. The Organization Group will prepare a EURADOS report summarizing the results of the intercomparison. The report will include the names of the IMS that have participated and the types of dosimeters used but the results will be presented anonymously. In addition, a picture of the participating dosimeters will be included in this report
8. EURADOS, members of the intercomparison Organization Group, the coordinating laboratory, and the irradiation laboratory, accept no liability for any direct or consequential loss or damage arising from this intercomparison.
9. Intercomparison results will be treated by EURADOS as confidential data and participant identity will not be disclosed. Data used in technical and scientific studies, publications or presentations will be presented anonymously. Photos of the dosimetry systems will be used for publications.
